OFF:

On the basis of Gradual Breathing Mode, press the power button again, the pathway light will power off.

## WARM TIPS

- 1.It is recommended to turn off the light and charge it under direct sunlight for 1-2 days before the first use. Make sure the product has enough power.
- 2.During the installation, please make sure the pathway light is installed under direct sunlight where there is no shade or eave to shelter the solar panel. Otherwise, the lighting time will be shorter.
- 3.Whether the solar pathway lights can produce the best lighting effect or not depends on sunlight intensity, geographical location, weather conditions, seasons and other conditions.
